In Basecamp, each project lives on a single page. With everything in reach,

Website Redesign

Liza R. started a new project called **Website Redesign**   2:34pm
Everything related to the redesign of our company website.

Not everything under the sun, just the stuff to get things done.

Besides unlimited projects, you'll get **pings** for private conversations, **reports** to summarize the essentials, **notification protections** so you aren't constantly distracted, a **timeline** showing you everything that's happening, **exceptional customer service**, and **plenty more** to round it out.

Basecamp also helps you consolidate billing, cut costs, and simplify onboarding. When you use Basecamp you don't need separate apps for chat, file sharing, tasks, or basic scheduling. No more bouncing around, losing stuff, wondering where someone put something, paying multiple bills or onboarding people in multiple places. **Less isn't more, it's better.**

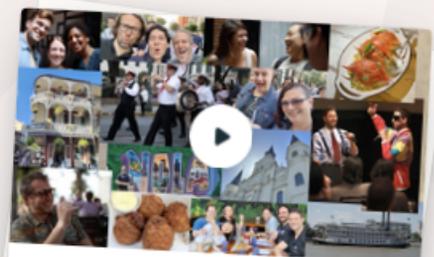

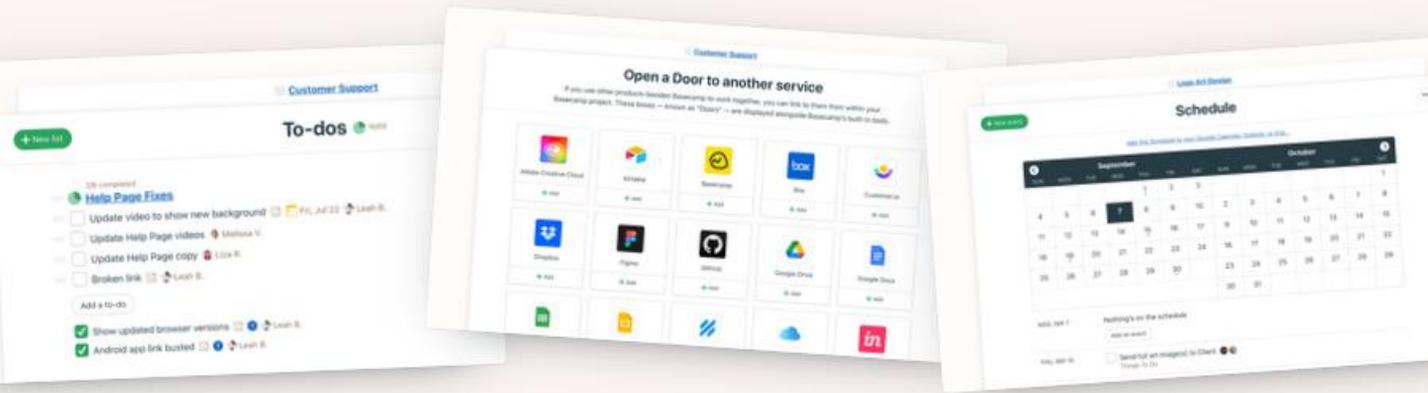

A well-run company is part of the package, too.

Running a sane, sustainable business is part of our commitment to you. We've **written bestselling books** about our straightforward approach, and **our employee handbook** is public for everyone to see.

✓ 24 profitable, financially responsible years in business.
✓ Zero debt, privately held, and built to stay, not exit.
✓ 99.99% historical **uptime**, with full transparency.
✓ Gold standard, **famously great customer service**.
✓ Extensive **learning library free for all customers**.
✓ **Full support for legacy products** as well.

Email our CEO anytime, as well. He wants to hear from you.

Watch how **a team of two organized and managed a company offsite for 80 people** — all within Basecamp!

Used by top notch **marketers**, ad agencies, designers, **client services firms**, consultants, **software developers**, freelancers, **PR agencies**, contractors, schools, **non-profits**, first responders, and many others. **Over 75,000 organizations, across every industry imaginable, in 166 countries.**

"I've used Basecamp for a million projects over the last decade and a half. **It's beautiful software that has resisted every wrong trend and stayed true to the things that mattered most.** Highly recommended."
